

SECTION GUIDE

RESIN INFUSION PRODUCTS

Name	Description
Toolfusion® 1A / 1B	High temperature tooling infusion resin with room temperature initial cure
Toolfusion® 3	High temperature infusion resin with low initial cure temperature
Infusioncoat® 1A / 1B	Non-sagging, high temperature surface coat
Carbon and fibreglass fabrics	Fabrics for resin infusion and standard laminate tooling
Carbon Triaxial Fabrics	Performance fabrics for Toolfusion® Tooling
Greenflow 75	High performance, low profile resin distribution medium
Resinflow 60	Red extruded resin distribution medium
Blueflow 88	High performance, low profile resin distribution mesh
Breatherflow 20	Reusable debulking mesh breather & resin distribution medium
Resinflow 20	Reusable debulking breather & resin distribution medium
Resinflow 90 HT	Clear high temperature resin distribution medium
Greenflow 185	High drapable knitted resin distribution medium
Knitflow 105 HT	High temperature resin flow medium
Flowlease 75-37P16	Combined product
Flowlease 88-37P16	Combined product
Resin infusion auxiliary materials	Tubing, spiral tubing and fittings
OF313, OF500, OF750 & OF1000	Silicone rubber omega flow lines
OF 625V & 750V	Vinyl omega flow lines
Resintrak	Resin flow line
Vactrak	Vacuum manifold
Dahlpac MC79	Vacuum breather pad with zero resin bleed for resin infusions
VAC-RIC LT	Low temperature resin infusion connector with flat base
VAC-RIC HT	High temperature resin infusion connector with flat base
RIC	Resin infusion connector
RB 451	Vacuum reservoir for resin infusion
Resin line clamp	Flanged locking plier
Resin infusion starter kit	Starter kit for beginners in resin infusion technology
Airtac 2	Spray contact adhesive for temporary bonding
Airtac 2E	Spray contact adhesive for temporary bonding
Airtac 3	Spray adhesive for temporary bonding
Econotac 2	Economical contact spray adhesive
Tac-Strip	Dry fabric placement tape
